

F-5 SEMINAR

***Friday, August 5, 2022
at 10:30 AM***

*in the seminar room of physics (room 106)
Condensed Matter Physics, Jožef Stefan Institute*

Dr Ali K. Yetisen

Faculty of Engineering, Imperial College London, UK

Optical Biosensors for Point-of-Care and Implantable Diagnostics

In this talk, Dr Yetisen will discuss the development of colorimetric, fluorescent and optical fibre sensors for applications in medical diagnostics. He will highlight studies in ex vivo models and patient samples for the creation of robust probes in medicine.

You are cordially invited to attend.
